Early Childhood Personnel Center

ECPC MISSION:

The purpose of the Early Childhood Personnel Center (ECPC) is to provide leadership at the national, regional and state level for State Education Agencies (SEA), Part C agencies, early care and education agencies, Institutes of Higher Education (IHE), and other professional development entities responsible for the preparation, credentialing and continuing education of those providing services to infants, toddlers, and young children with disabilities and their families.

ECPC LEADERSHIP AND COORDINATION:

The ECPC has a number of objectives to ensure coordination occurs between project activities and other organizations who provide technical assistance (TA) and support to those working in early childhood intervention. These collaborative efforts include other federal and state level TA centers, and discipline specific organizations addressing the needs of young children and their families.

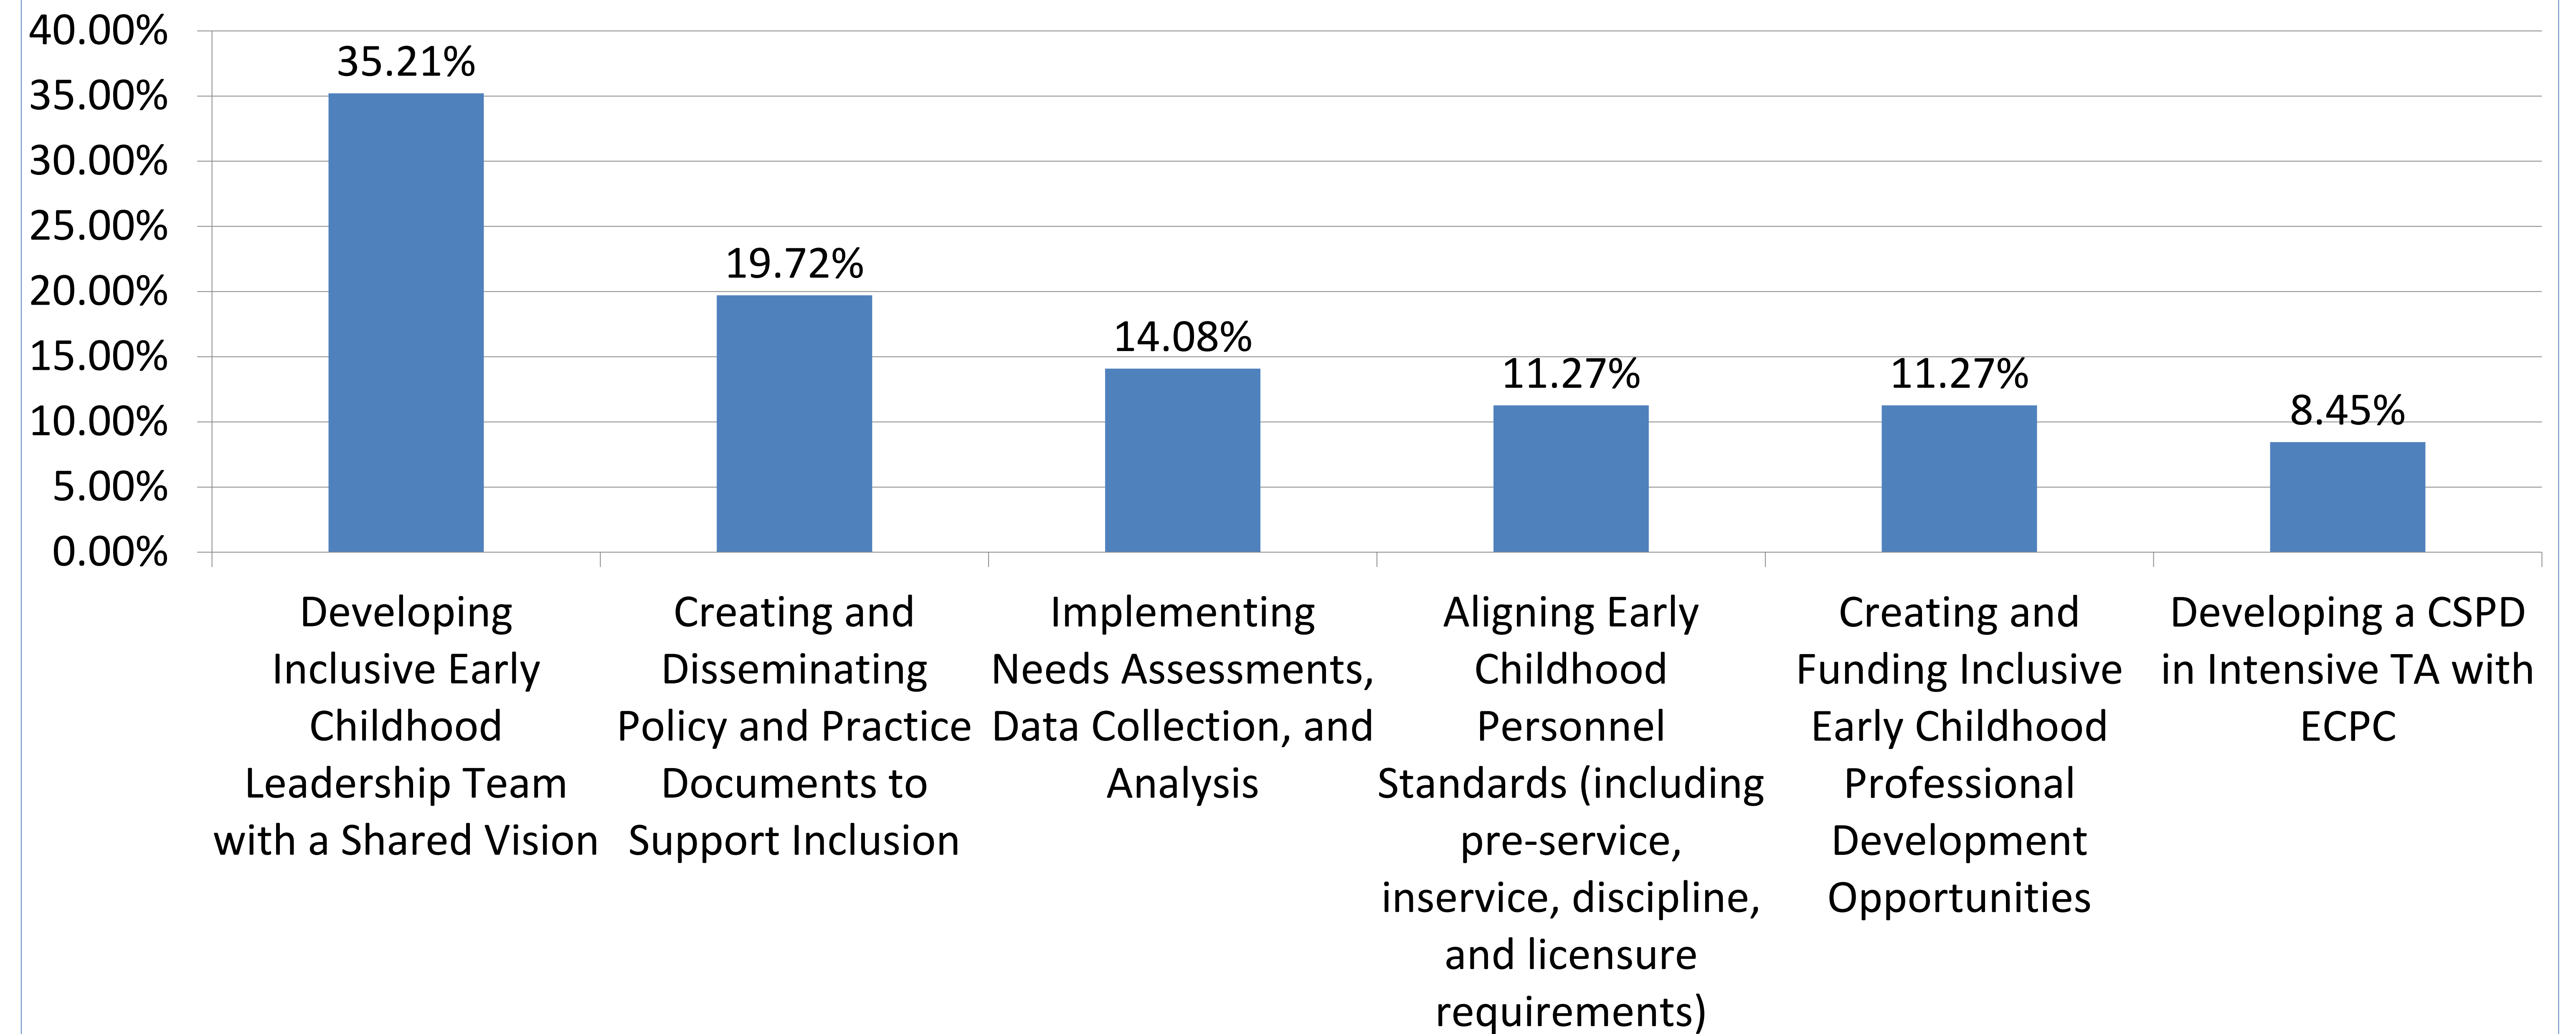

LEADERSHIP INSTITUTE PURPOSE:

The 3 day ECPC Leadership Institute focuses on developing strategies to enable IDEA early childhood leaders to integrate their planning and activities with state early childhood programs and partners. During the institute, leadership teams from each participating state develop a work plan to address leadership, collaboration, and sustainability activities across their state early childhood initiatives.
