ECPC technical assistance is used to support the following outcomes for the Family Cohort:

- Provide training: how to use stories to teach within IHE programs and state PD programs
- ECPC will work to match families with IHE programs and state PD activities utilizing technology
- Learn how to tie stories to an element or 2 of the standards, what is the message (sample family stories may be shared on the ECPC website)
- Families need to be able to talk about the standards and the DEC Recommended Practices and feel confident with the components and practices (and relate to state PD activities)
- Videotape stories to gather feedback from peers before presenting to higher education or a state PD training
- Provide input to ECPC about materials and tools needed to support families to tell their stories in IHE and State PD systems. (At least 2 manuals and accompanying materials will be developed, one to support families to teach in IHE and State PD Trainings and another to support families in state CSPD systems)
