This sample syllabus provides resources, activities, readings, and assignments, aligned with the Initial Practice-Based Professional Preparation Standards for Early Interventionists/Early Childhood Special Educators (2020) and DEC Recommended Practices (2014). Consider state and university policies and add as appropriate. This is not a complete syllabus, nor is it intended to suggest that the standard would be addressed in only one course in the curriculum.

ECPC Sample Syllabus
Standard 6: Using Responsive and Reciprocal Interactions, Interventions, and Instruction

Course Description
This example is Standard 6.

This course is designed to help students plan and implement intentional, systematic, evidence-based, responsive interactions, interventions, and instruction to support all children’s learning and development across all developmental and content domains in partnership with families and other professionals. Students will learn to facilitate equitable access and participation for all children and families within natural and inclusive environments through culturally responsive and affirming practices and relationships. Students will use data-based decision-making to plan for, adapt, and improve interactions, interventions, and instruction to ensure fidelity of implementation.

Required Texts
The text below is an example for Standard 6. When developing or revising your syllabus, you may also choose supplemental readings. (See References in the Resources section of the ECPC Curriculum Modules: Professional Standards for related literature and resources.)

Standard 6 Components - Student Learning Outcomes
IHE faculty may develop additional student learning objectives by breaking down the components into sub-objectives and describing the knowledge, skills, and dispositions students are expected to learn upon successful completion of this course. Two sample student learning objectives are listed for each of the numbered components below. These are examples only and are not intended to be a complete set of objectives for the respective component.

As a result of active participation and successful completion of course requirements, students will be able to:

6.2 Engage in reciprocal partnerships with families and other professionals to facilitate responsive adult-child interactions, interventions, and instruction in support of child learning and development.
• Describe strategies to engage in reciprocal partnerships with families and other professionals to facilitate responsive adult-child interactions to support child learning and development.
• Describe strategies to engage in reciprocal partnerships with families and other professionals to implement interventions and instruction to support child learning and development.

6.5 Identify and create multiple opportunities for young children to develop and learn play skills and engage in meaningful play experiences independently and with others across contexts.
• Describe how to identify and create multiple opportunities for young children to develop and learn play skills.
• Describe how to identify and create multiple opportunities for young children to engage in meaningful play experiences independently and with others across contexts.

**Topical Course Outline**
The topical course outline is organized by course sessions and aligns course topics with EI/ECSE Standards and components. In addition, reading(s) and learning activities are identified for each topic.

**Resources**

Resources to supplement the ECPC Sample Syllabus Standard 6:

- **Backpack Connection Series**
  The Backpack Connection Series was created by the Technical Assistance Center on Social Emotional Intervention (which is now part of NCPMI) to help young children develop social emotional skills.

- **Initial Practice-Based Professional Preparation Standards for EI/ECSE (2020)**
  Link to the standards and supporting resources.

- **Center for Parent Information and Resources**
  Link to family-friendly materials and resources.

- **Division for Early Childhood Recommended (DEC) Practices with Examples**
  Effective practices to improve child outcomes.

- **Early Childhood Recommended Practices Module 1: Interaction**
  A module to learn about effective instructional practices.

- **ECPC Cross-Disciplinary Competencies**
  Core cross-disciplinary competence areas for use by ECI professionals.

- **ECPC Curriculum Modules: Professional Standards**
  A module for each of the seven EI/ECSE Standards with a variety of resources (e.g., multimedia illustrations, websites, references).

- **Interaction Practice Guides for Practitioners**
  From ECTA, resources and video examples of child and adult interactions.

- **Interaction Practice Guides for Families**
  From ECTA, resources to support parent-child interactions.

- **Principles for Use of Technology with Early Learners**
  A resource from the Office of Educational Technology.

- **Professional Standards and Competencies for Early Childhood Educators**
  A resource from NAEYC.

- **Zero to Three: Power of Play**
  Learning through play from birth to three.

**Journals in EI/ECSE**

Below are examples of journals that publish topics about EI/ECSE. Faculty may want to explain how to use articles to support practice and to examine current research. Clarify the difference between practitioner-based journals and research-based journals.

- **Exceptional Parent Magazine**
- **Infants and Young Children**
- **International Journal of Early Childhood Special Education**
- **Intervention in School and Clinic**
- **Journal of Special Education Technology**
- **Rural Special Education Quarterly**
- **Teaching Exceptional Children**
Assignments

1. **Social Emotional Development and Learning Modules (Component 6.2)**
   Within the training modules dropdown tab, select one infant/toddler training module and one preschool training module. The modules will download to your device and will include the presentation, video examples, resources, and supplemental materials to support learning. Each module is approximately six to seven hours of content.

2. **Social Narratives (Component 6.2 and 6.5)**
   Read the AFIRM Social Narratives Brief Packet that presents the evidence-based overview of social narratives. You will plan, develop, implement, and revise two social narratives, one together with your family partner and one together with your preschool teacher partner.

   Identify a social behavior for change that will result in positive social interactions and additional social learning opportunities for the child. Use the Social Narratives implementation checklist, found in the brief packet, as both a guide and as a self-assessment for both social narratives you create.

   For both social narratives, submit the initial plan, revised plan, the final social narrative, and the implementation checklist. Write a two-page reflection about the experience, including feedback from the family and preschool partners.

3. **Feelings Vocabulary List (Component 6.2)**
   Read Teaching Your Child about Feelings from NCPMI and share the resource with your partner family. Together, choose two of the ideas from the last three pages and try the ideas with the child. With the family, develop a feelings vocabulary list that can be used to teach the child to communicate what they are feeling and experiencing. Submit a summary of the ideas tried and the co-created feelings vocabulary list.

4. **Observe Play (Component 6.5)**
   In the preschool partner classroom, observe how children play on five different visits for 20 minutes each visit. Observe a variety of environments including outside play. Record your observations each of the five visits. Think about the stages of object and social play and identify the stages observed. Include children’s conversations during play when possible. Write a three to five-page summary about your observations.
